*Welcome
to our World.*

The *Elsa Design* and the *Elsa International Concept Ltd* -specialized in Nigerian business- were born from the union of several Italian businessmen who work in different sectors.

The synergy of different business experiences in various ranges of activity has made possible the achievement of important targets, providing a comprehensive range of services to its customers.

With regard to the import-export services, the company is able to offer a wide range of raw material and products aimed at the industry and building trade, these services are significantly supported by the international relationship created over the years by the businessmen and partner of the *Elsa Design* and the *Elsa International Concept Ltd*; they always give special attention to the renewable energies, as to invest part of the company's proceeds in some initiatives dedicated to the "green" energy.

The company is specialized in made in Italy material, offering high quality and design products.

Casa Decor

Madrid - ES

"All it takes is one profile and a good deal of creativity to get to an extraordinary result"

Once a year all interior design professionals and enthusiasts make a pilgrimage to Casa Decor. New life is breathed into an old building, with this surprising mix as a result.

Our modular system and our elements give a special touch to the play of colour, light and texture on the ceiling, walls, and even the furniture.

*“Clean, graphic lines –
pure Scandinavian style”*

Applying simple, straight profiles and elements, graphic lines and patterns gives the interior of this bed and breakfast that extra touch of visual excitement.

The light tones on the walls and the high skirting boards in the dining room, painted in the same colour as the wooden floor, give the room a classic Scandinavian ambience: clean, graphic and stylish.

*“Grand style:
a great success”*

Bitson

Cranleigh - UK

Artson

Cranleigh - UK

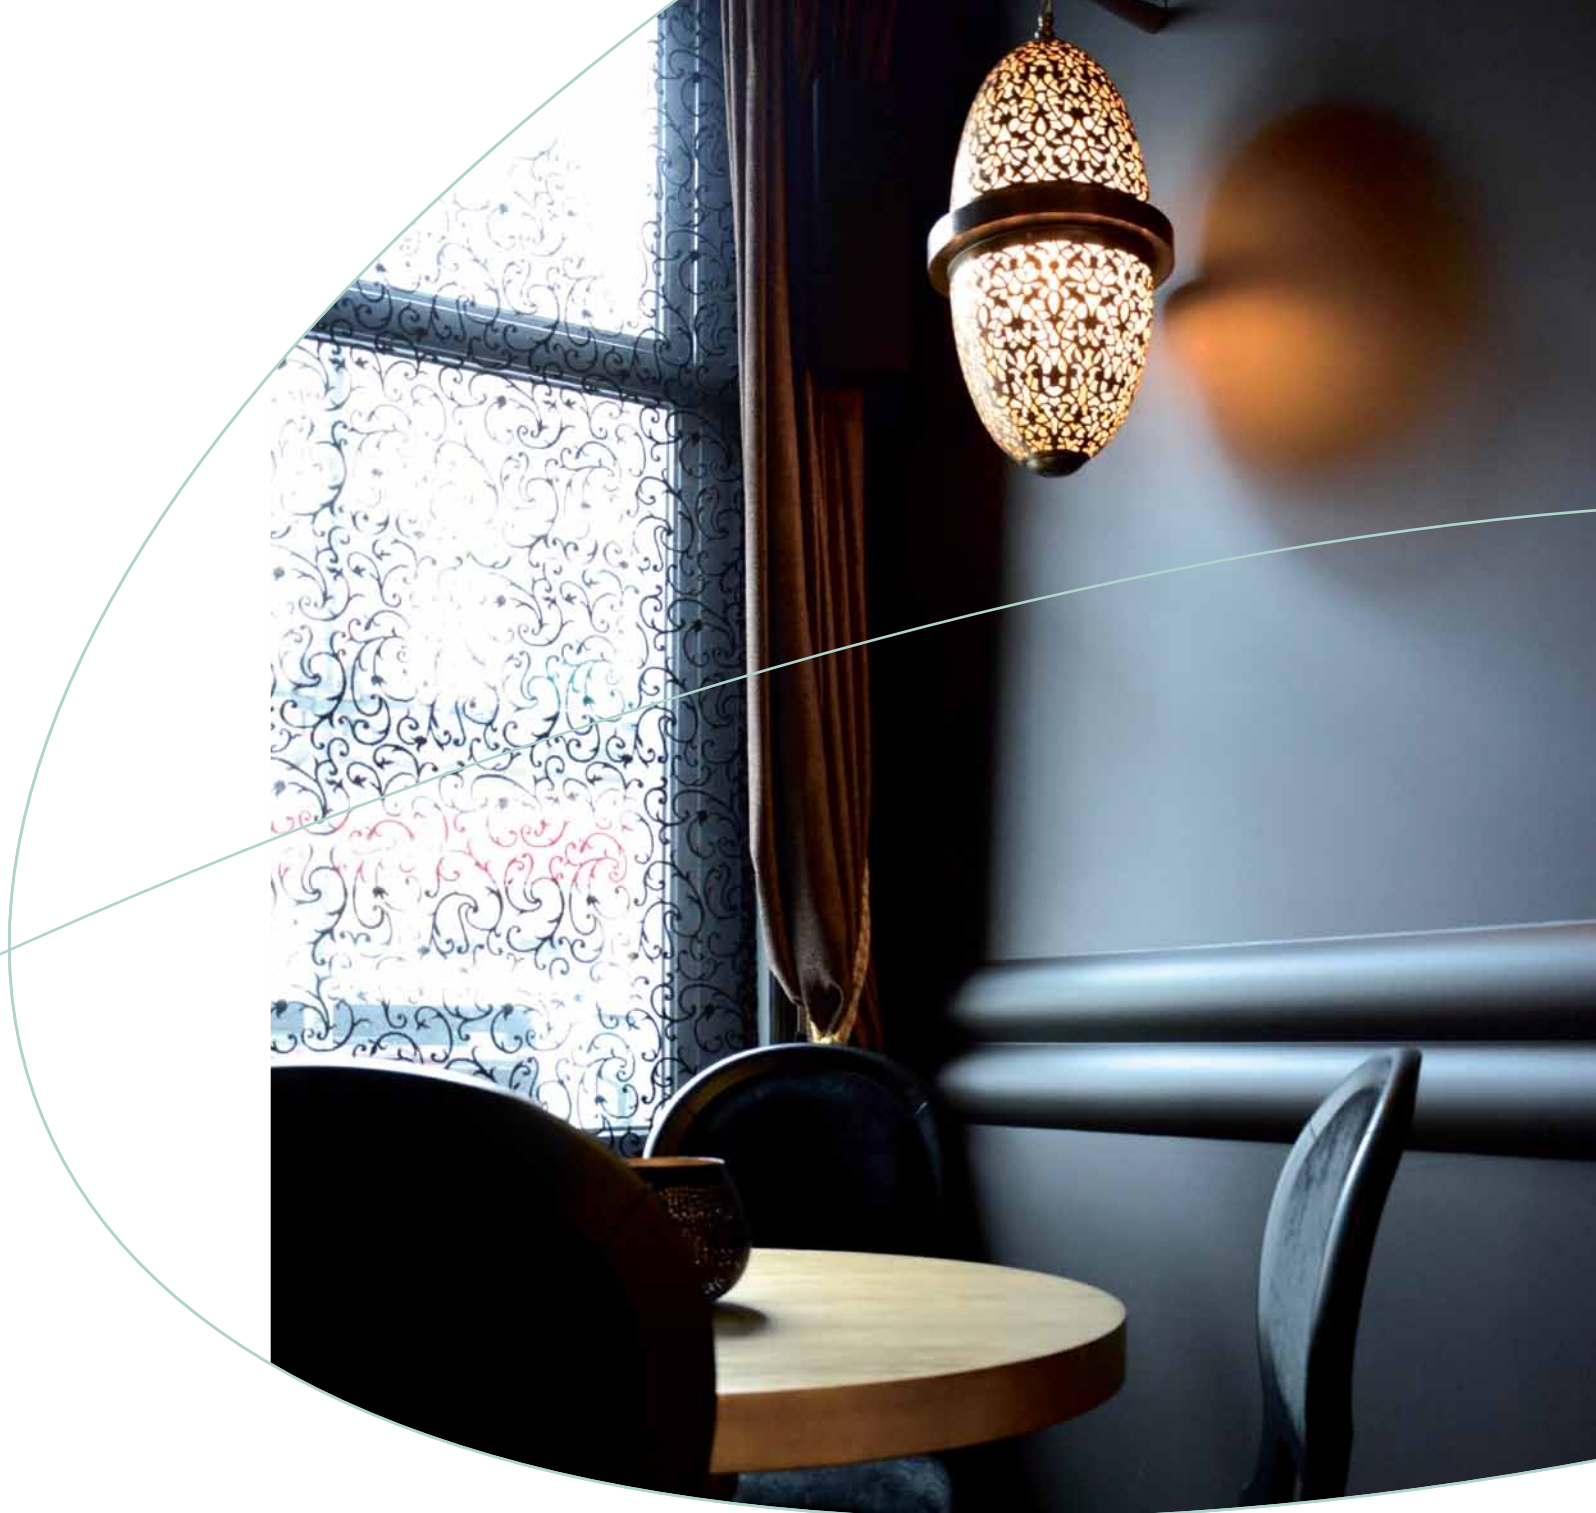

English Heritage is recreated in a modern manner in this room.

The framed panels on the wall are arranged in an original pattern, and the imposing asymmetrical cornice moulding creates an optical illusion.

This interior shows that a grand style with strong mouldings can be enormously successful.

Bardò

“A cosmopolitan atmosphere thanks to the organic shapes created by Ulf Moritz’ profiles”

Manoir Fleuri

Bordeaux - FR

Baroque is back, but that does not necessarily mean artistic excess - as this interior demonstrates. The decorative mouldings and corner features,

inspired by the past, generate an array of lines and shadows without being obtrusive.

Clinic 28

Den Haag - NL

*“A perfect reflection of
the true and natural
beauty of mouldings”*

Clinic 28

Den Haag - NL

The authentic aura of the interior of this stately villa in The Hague has been restored by fitting skirting boards, framed panels and cornice mouldings.

In this cosmetic clinic, beauty finds its full expression in a warm, familiar surroundings.

Das Tegernsee

House of Porters

Antwerp - BE

In Porters Guesthouse, the traditional warm interior harmonises perfectly with the architecture of the building.

In every room columns, cornice mouldings and wall coverings draw your attention in an almost theatrical manner.

Pieter Porters

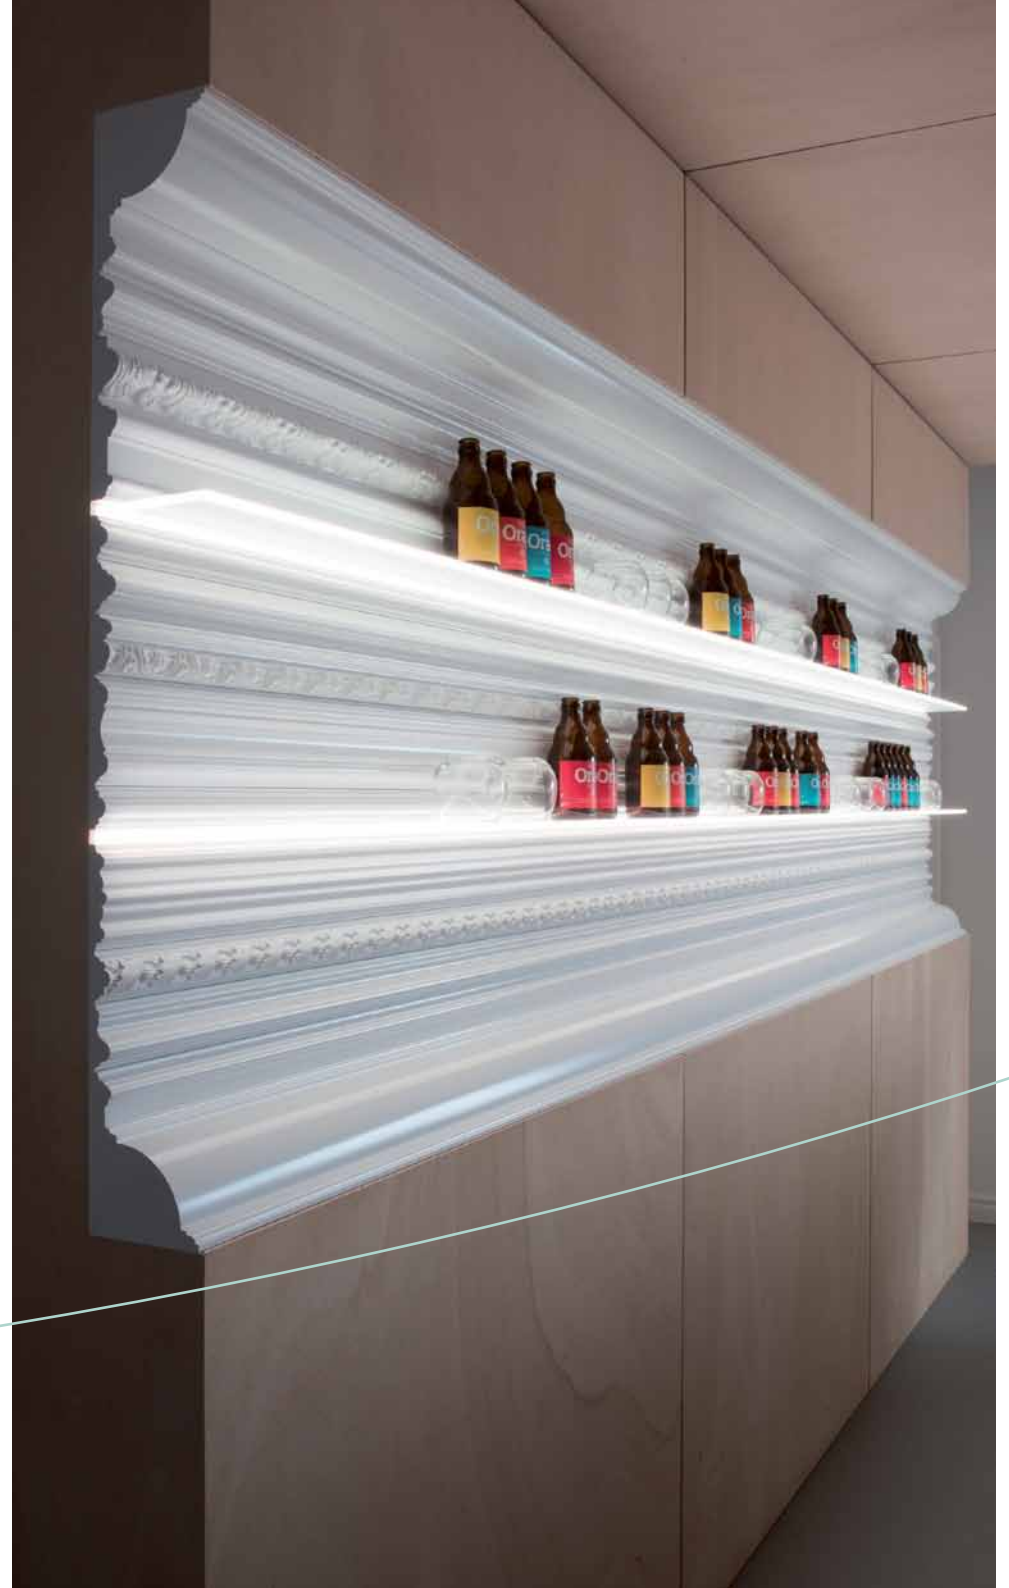

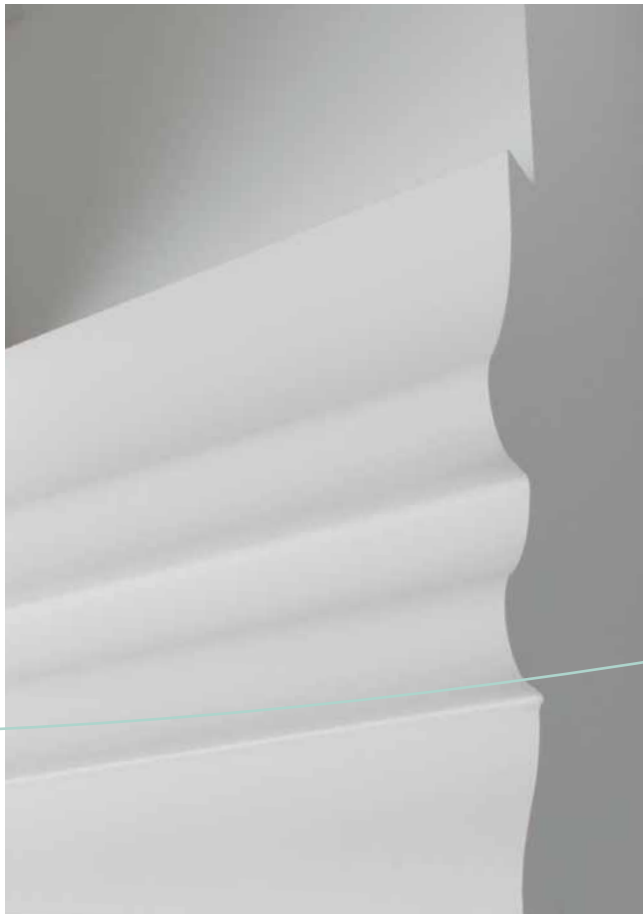

Big One

Oostende - BE

If you want to inspire creativity
in the interior design world,
you have to set a good example.

The extensive collection takes
centre stage in a really surprising way.

DECORATIVE PANELS

MODEL | 01

The natural composition of 3D panels and the Loft systems design are designed to harmonize with the structure to be coated.

DECORATIVE PANELS
MODEL I 02

The image shows a close-up of several decorative panels with a wavy, layered appearance. The panels are in shades of grey and white. A small, square inset with a circular gold-colored detail is visible on the upper left panel. The lighting creates soft shadows and highlights the texture of the panels.

DECORATIVE PANELS

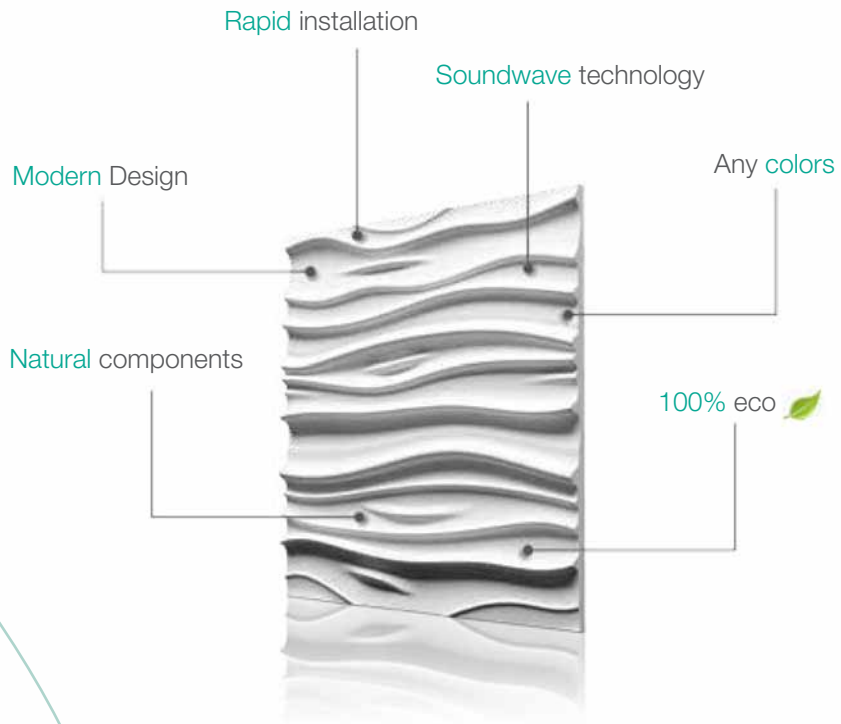

MODEL I 03

The Loft Design System panels are predisposed to naturally regulate the moisture level of the walls, absorbing the excesses and releasing the water absorbed in more dry periods.
